TAX THE RICHMEN

Quick start

Tax the Richmen is for 2–4 players, balanced for four.

Claim a City and a Port, lay the setup roads, choose a Port specialization, and take the starting resources.

On your turn: roll, resolve production or a 7, trade, take up to two actions, then end.

Build Roads from your City to your Port. Pay tolls to use a rival Road.

Own properties, place up to two Offices, lease Oil Rigs, and run Pipelines through a Rig you do not need to lease.

When your Port is connected, its number draws Steel Cards. Ten Steel on an activated Port wins.

A 7 is not production. It taxes, may tax Steel, and the active player moves the Inspector.

Questions marked Playtest clarification required in the rulebook are not decided on this sheet.

Card size on the Steel sheets is a prototype proposal: 60 × 85 mm. Cut on the crop marks. Print at 100% scale.
